

4 December 2020

Dear Parents/Carers

## Year 11 Revision

Your son has recently completed the first round of his PPE exams and teachers are busy marking papers and entering grades so that shortly the results can be available to parents and carers.

It could be tempting, particularly with the headlines in the press around a possible change in summer exam arrangements, for boys to think and say to you that they don't need to revise, but they do!

The message boys are receiving from all of their teachers is that revision continues and that little and often is the way to embed the knowledge needed for the summer. For further tips and hints please click on the link below to view our 'How to Revise' video.

<https://www.loom.com/share/cdb29fe6c14e47729124b4fea1164ad2>

Teachers are very much looking forward to meeting you at Parents Evening on 14 December and will be talking about key areas of curriculum that your son needs to focus his revision on.

If you need support before then please don't hesitate to be contact with us.

Yours sincerely

Gill Ansell  
Assistant Principal, Senco, Director of Key Stage 4
