Why we share workforce information

We are required to share information about our Trust employees with the DfE under section 5 of the Education (Supply of Information about the School Workforce) (England) Regulations 2007 and amendments.

Why we share governance information

All data is transferred securely and held by the DfE under a combination of software and hardware controls which meet the current [government security policy framework](#).

We are required to share information about our Trustees and Academy Councillors with the DfE under the requirements set out in the [Academies Financial Handbook](#).

We do not share information about our Trustees/Academy Councillors with anyone without consent unless the law and our policies allow us to do so.

The governance data we share with the DfE is entered manually on the GIAS system and held by the DfE under a combination of software and hardware controls which meet the current [government security policy framework](#).

The Trustee/Academy Councillor data that we lawfully share with the DfE via GIAS:

- Will increase the transparency of governance arrangements
- Will enable schools and the department to identify more quickly and accurately individuals who are involved in governance and who govern in more than one context
- Allows the department to be able to uniquely identify an individual and in a small number of cases conduct checks to confirm their suitability for this important and influential role.

How the Government uses your data

The workforce data that we lawfully share with the DfE through data collections:

- Informs departmental policy on pay and the monitoring of the effectiveness and diversity of the school workforce
- Links to school funding and expenditure
- Supports 'longer term' research and monitoring of educational policy.
